- **Handle Color:** Orange
- **Pocket Clip:** Tip-up
- **Lock Mechanism:** Liner Lock
- **Open Way:** Thumb Stud
- **Blade Finish:** Satin
- **Blade Grind:** Flat
- **Regular MOQ:** 600
- **Remark:** Exclusive ODM in terms of steel and handle materials

Exclusive Design for First-Comers

The YC09A folding knife is not just another product—it's a unique opportunity for businesses to differentiate themselves in the market. Our exclusive in-house design policy ensures that the first customer who orders this model will have the sole right to own and sell this bespoke design. This exclusivity guarantees that your brand will stand out, offering your customers something they can't find anywhere else.

Superior Blade Craftsmanship

The heart of the YC09A is its expertly crafted blade, made from high-quality **7Cr17MoV stainless steel**. Known for its superior durability and corrosion resistance, this material ensures that the blade will maintain its sharpness and integrity over time. With a hardness rating of **56-58 HRC**, the blade is built to withstand rigorous use while providing a reliable and precise cutting edge.

The **Wharncliffe point** style is a standout feature, offering exceptional control and precision in cutting tasks. This design is particularly well-suited for slicing and detail work, making the YC09A a versatile tool for a variety of applications.

The **satin finish** adds a touch of elegance to the blade, enhancing its visual appeal while providing additional protection against wear and tear. The **flat grind** ensures a consistent and sharp edge, contributing to the blade's overall performance and longevity.

Ergonomic Handle Design

The YC09A showcases a handle crafted from **G10**, a high-strength composite material renowned for its durability and resistance to environmental factors like moisture and temperature. This ensures a secure and comfortable grip, critical for safety and precision during use. The **orange color** not only adds a vibrant aesthetic but also enhances visibility, ensuring the knife can be easily located even in challenging environments.

At a thickness of **0.472" (12mm)**, the handle is designed for optimal ergonomics, providing a comfortable and secure grip for extended use. Its lightweight design, at just **3.63 oz (103g)**, ensures ease of handling, making it an ideal choice for users who need reliability without the weight.

Safety and Convenience Features

Secure Locking Mechanism

Safety is paramount in the design of any folding knife. The YC09A features a robust **liner lock mechanism** that securely holds the blade in place when open, preventing accidental closure and ensuring user safety during operation.

Efficient Opening System

The knife is equipped with a **thumb stud** for swift and easy one-handed deployment. This feature is especially advantageous for users who need quick access to their knife, whether for everyday tasks or in urgent situations.

Practical Pocket Clip

For convenience, the YC09A includes a **tip-up pocket clip**, allowing the knife to be carried securely and accessed quickly. This feature is designed to meet the needs of users who require their tool to be readily available at all times.

The Shieldon Advantage: Innovation and Exclusivity

At Shieldon Manufacturing & Trading Combo, we pride ourselves on our ability to innovate and provide exclusive products that give our clients a competitive edge. The YC09A folding knife is a prime example of our commitment to these values, offering a unique product that is as functional as it is distinctive.

Exclusive Rights for Early Adopters

By being the first to secure the YC09A, you gain exclusive rights to a model that embodies cutting-edge design and superior functionality. This exclusivity not only enhances your product line but also strengthens your brand's position as a leader in innovation and quality.

Tailored Solutions for Every Client

Our experience in OEM/ODM manufacturing allows us to offer tailored solutions that align with your specific needs and market demands. From material selection to branding and packaging, we collaborate with you to ensure that every aspect of your order meets your exact specifications.

Why Choose Shieldon?

Choosing Sheldon Manufacturing & Trading Combo means partnering with a team dedicated to excellence in every facet of knife production. Our commitment to quality, innovation, and customer satisfaction ensures that you receive a product that not only meets but exceeds your expectations.

Unmatched Expertise

With over 25 years of experience in the industry, Sheldon has the expertise needed to deliver products that are both high-quality and innovative. Our team of skilled designers and engineers is equipped to handle complex projects, ensuring that your vision is realized in every detail.

Commitment to Quality

Our rigorous quality control processes ensure that every knife produced meets our high standards. From initial design to final inspection, we are committed to delivering products that are reliable, durable, and built to last.

Conclusion: Secure Your Exclusive ODM YC09A Model Today

The **ODM YC09A folding knife** is more than just a tool; it is an exclusive design that represents the future of knife craftsmanship. With its superior materials, innovative design, and exclusive availability, it offers a unique opportunity for businesses looking to set themselves apart.

Contact Shieldon Manufacturing & Trading Combo today to learn how you can secure the exclusive rights to this remarkable model. Together, we can create a product that not only meets your needs but also positions your brand at the forefront of the industry.

Unveiling Shieldon's Comprehensive OEM/ODM Folding Knife Project Service: Beyond Production to Brand Excellence

In the dynamic world of knife manufacturing, precision and craftsmanship are only part of the equation. For brands looking to make their mark, the journey from concept to consumer involves more than just production; it requires a holistic approach that integrates design, branding, and packaging. Shieldon Manufacturing & Trading Combo offers a comprehensive OEM/ODM folding knife project service that not only produces high-quality knives but also provides graphic design and packaging solutions, saving time and costs while enhancing your brand's market presence.

The Shieldon Way: From Concept to Market

With over 25 years of experience in the knife manufacturing industry, Shieldon is renowned for its expertise in OEM (Original Equipment Manufacturer) and ODM (Original Design Manufacturer) services. Our approach

is customer-centric, focusing on delivering a complete solution that aligns with your brand's vision and market goals. Our services extend beyond production, encompassing innovative design and strategic packaging solutions that streamline the journey from concept to market.

Comprehensive Design and Prototyping

The journey begins with understanding your unique needs and aspirations. Sheldon's design team collaborates closely with you to create detailed 3D models and prototypes, transforming your ideas into tangible products. Our designers and engineers bring a wealth of creativity and technical expertise, ensuring that the final product is both functional and aesthetically pleasing.

- **Innovative Design Process:** We leverage the latest design software and technology, allowing us to experiment with various styles and features until we achieve the perfect design.
- **Custom Solutions:** From blade shape to handle material, every aspect of the knife can be customized to meet your specifications, ensuring that the final product aligns with your brand identity.

Material Selection and Customization

Choosing the right materials is crucial to the performance and appeal of your knife. Sheldon offers a wide array of materials for blades and handles, including high-quality stainless steels, carbon steels, and advanced composites. This extensive selection allows us to tailor the knife's properties to your desired specifications, whether you require superior hardness, corrosion resistance, or lightweight durability.

- **Flexible MOQ:** Our flexible minimum order quantity (MOQ) policy ensures that you can pursue projects of any size, adjusting material choices to suit your budget and production needs.

Beyond Production: Graphic Design and Packaging

Sheldon understands that a knife's journey doesn't end with its production. To successfully capture the attention of your target market, effective branding and packaging are essential. We go beyond manufacturing to offer graphic design and packaging solutions that enhance your brand's visibility and appeal.

Expert Graphic Design

Our talented graphic design team works in tandem with you to develop compelling visual branding elements that resonate with your audience. Whether you require a new logo, product graphics, or marketing materials, Shieldon's design services ensure your brand stands out in a competitive market.

- **Brand Identity Development:** We create cohesive and striking designs that reflect your brand's personality and values, helping you build a strong identity.
- **Custom Graphics:** Tailor-made graphics that can be applied to knives, accessories, and promotional materials, enhancing both product and brand recognition.

Strategic Packaging Solutions

Effective packaging is as crucial as the product itself. It not only protects your knife but also serves as a powerful marketing tool. Shieldon offers packaging design services that save you time and costs associated with branding, providing a seamless transition from production to retail.

- **Innovative Packaging Design:** Our team designs packaging that is both functional and attractive, ensuring your product is presented in the best possible light.
- **Eco-Friendly Options:** We offer sustainable packaging solutions to meet the growing demand for environmentally responsible products, aligning your brand with green values.

The Shieldon Advantage: Streamlined and Cost-Effective

Choosing Shieldon as your OEM/ODM partner provides numerous advantages that streamline your project and reduce overall costs, all while maintaining high standards of quality and design.

Integrated Services

By offering graphic design and packaging services alongside production, Shieldon simplifies the process, serving as your one-stop-shop for everything from concept to finished product. This integrated approach saves time and reduces the complexity of managing multiple vendors.

Cost Efficiency

Our comprehensive service model is designed to optimize costs at every stage of the project. By combining production, design, and packaging under one roof, we reduce overheads and pass these savings on to you. This ensures you receive a cost-effective solution without compromising on quality or innovation.

Fast Turnaround Times

Our streamlined processes and in-house capabilities enable faster turnaround times, allowing you to bring your product to market more quickly. This agility is crucial in an industry where time-to-market can significantly impact competitiveness and profitability.

Case Studies: Success in Action

Case Study 1: Launching a Stylish EDC Knife

A lifestyle brand approached Shieldon to create a stylish everyday carry (EDC) folding knife that appealed to urban professionals. The project required not only high-quality production but also eye-catching design and packaging.

- **Solution:** Shieldon's design team developed a sleek knife design and a sophisticated packaging solution that highlighted the product's modern appeal. Our graphic designers created a brand identity that resonated with the target market, resulting in a successful product launch that exceeded sales expectations.

Case Study 2: Outdoor Knife with Sustainable Packaging

An outdoor gear company wanted to produce a folding knife with an emphasis on sustainability. They required eco-friendly materials and packaging that aligned with their brand values.

- **Solution:** Shieldon sourced sustainable materials for the knife and developed green packaging options. Our design team created branding elements that emphasized the brand's commitment to the environment. The result was a product that was not only functional and durable but also aligned with the brand's mission, leading to positive market reception.

Conclusion: Partner with Shieldon for Comprehensive OEM/ODM Solutions

[Shieldon Manufacturing & Trading Combo](#) offers more than just knife production; we provide a full suite of services that take your product from concept to consumer with seamless efficiency. Our commitment to quality, innovation, and customer satisfaction ensures that your project is handled with the utmost care and precision.

By providing integrated graphic design and packaging services, Shieldon helps you save time and costs, allowing you to focus on building your brand and reaching your market. Whether you're developing a new product line or enhancing an existing one, our expertise and dedication to excellence ensure a successful outcome.

Contact Shieldon today to learn more about how we can support your folding knife project with comprehensive services that extend beyond production to complete brand excellence. Together, we can create products that not only meet your specifications but also captivate your audience and elevate your brand.
