- **Blade Thickness:** 0.157" (4mm)
- **Blade Length:** 2.76" (70mm)

- **Handle Thickness:** 0.157" (4mm)
- **Total Length:** 6.26" (159mm)
- **Weight:** 1.78 oz (50.5g)
- **Blade Style:** American Tanto
- **Handle Color:** N/A
- **Sheath:** K-sheath
- **Blade Finish:** Satin
- **Blade Grind:** Flat
- **Regular MOQ:** 600
- **Remark:** Exclusive ODM for the first ordered customer

## A Masterpiece of Design and Functionality

### High-Quality Blade Construction

The YD09A features a blade crafted from **7Cr17MoV** stainless steel, renowned for its excellent strength, durability, and resistance to corrosion. This material ensures the knife remains sharp and reliable, even under demanding conditions.

- **American Tanto Blade Style:** The American tanto blade is designed for superior piercing capability and strength, making it ideal for self-defense situations. Its robust point enhances its penetration power, providing exceptional performance.
- **Satin Finish:** The satin finish of the blade not only enhances its aesthetic appeal but also helps in reducing glare, making it discreet and practical for tactical situations.

### Ergonomic Design and Lightweight Build

While the YD09A does not feature a traditional handle, its design ensures a comfortable and secure grip. The minimalistic approach enhances its portability, making it an ideal choice as a neck knife.

- **Streamlined Design:** The narrow build allows for easy handling and swift maneuvers, crucial for self-defense applications.
- **Ultra-Lightweight:** Weighing only **1.78 oz (50.5g)**, this knife is easy to carry and quick to deploy, crucial attributes for a neck knife designed for self-defense.

### Practical and Secure K-Sheath

The YD09A comes with a custom **K-sheath**, designed for style, functionality, and security. This sheath ensures the knife is safely stored when not in use and can be quickly accessed when needed.

- **Easy Attachment:** The K-sheath is designed for easy attachment as a neck sheath or to belt loops, ensuring swift accessibility in critical situations.
- **Secure Storage:** The sheath provides a secure hold, preventing accidental slips, and ensuring that the knife is always ready for action.

## The Sheldon Advantage: Exclusivity and Precision

### Exclusive Design Rights

At Sheldon, we understand the importance of exclusivity in a crowded marketplace. The YD09A neck knife is available only to the first customer who orders, guaranteeing that your brand will offer a product that no competitor can replicate.

- **Unique Market Offering:** By owning the exclusive rights to the YD09A, your brand can establish a commanding presence in the market with a product that is both unique and highly sought-after.

### Tailored to Your Brand's Unique Identity

Our ODM services ensure that the YD09A is not just a product but a reflection of your brand's unique identity. Customization options allow the knife to mirror your brand's ethos and market objectives.

- **Custom Branding Solutions:** We offer tailored branding solutions, ensuring the knife aligns with your brand's image and resonates with your target audience.

### Commitment to Quality and Innovation

Every YD09A neck knife is produced to meet the highest standards of quality, undergoing rigorous testing and quality control to ensure it exceeds expectations.

- **Advanced Manufacturing:** Our state-of-the-art facilities and skilled workforce ensure each knife is crafted with precision and consistency, maintaining the integrity of our designs.
- **Quality Assurance:** Rigorous quality control measures are in place at every stage of production, ensuring that each knife meets our high standards of performance and durability.

## The Sheldon ODM Process: From Concept to Reality

### Step 1: Initial Consultation and Customization

Our process begins with a detailed consultation to understand your brand's vision and specific needs. This collaborative approach ensures that the final product is a true reflection of your objectives.

- **Understanding Your Brand:** We work closely with you to capture your brand ethos, ensuring the YD09A is tailored to meet your strategic goals.

### Step 2: Design and Prototyping

Our expert design team uses advanced technology to create a detailed prototype of the YD09A, allowing for thorough testing and refinement before production.

- **Advanced Modeling:** Detailed 3D models provide a realistic preview of the product, allowing for adjustments and improvements based on feedback.
- **Iterative Prototyping:** We develop prototypes for testing, ensuring the design is perfected before moving to full-scale production.

### Step 3: Precision Manufacturing

Once the prototype is approved, we commence full-scale production, utilizing state-of-the-art technology and skilled craftsmanship to produce the YD09A.

- **State-of-the-Art Facilities:** Our modern manufacturing facilities and skilled workforce ensure that each knife is crafted with precision and consistency.
- **Rigorous Quality Control:** Each knife undergoes stringent quality checks to ensure it meets our high standards of performance and durability.

### Step 4: Branding and Market Launch

Our services extend beyond production, offering comprehensive branding solutions to enhance your product's market appeal and ensure a successful launch.

- **Custom Branding Elements:** We provide bespoke branding solutions, ensuring your product stands out in the market.
- **Efficient Logistics:** Our streamlined logistics and delivery services ensure that your products reach the market on time, ready for sale.

## Why Choose Shieldon?

### Expertise and Innovation

With over two decades of experience, Shieldon combines traditional craftsmanship with modern technology, ensuring that each product we create is a masterpiece of design and functionality.

- **Diverse Capabilities:** Our wide range of production capabilities allows us to cater to various sectors and applications, ensuring we can meet any client need.
- **Global Reach:** Our international presence and network enable us to serve clients worldwide, delivering world-class products to diverse markets.

## Efficiency and Cost-Effectiveness

By managing the entire process in-house, Shieldon offers a seamless and cost-effective solution that saves you time and resources.

- **Integrated Services:** Our all-in-one approach, from design to production to branding, ensures a streamlined process with minimal overhead costs.
- **Competitive Pricing:** Our efficient production techniques and economies of scale allow us to offer competitive pricing without compromising on quality.

## Commitment to Excellence

At Shieldon, our commitment to excellence ensures that your brand can confidently offer a product that stands out in the market. With Shieldon, you are not just offering a knife; you are delivering a statement of quality and uniqueness.

## Conclusion: Secure Your Exclusive YD09A Model Today

The YD09A fixed blade neck knife represents a unique opportunity for your brand to distinguish itself in a competitive market. By securing this exclusive design, you gain access to a product that combines cutting-edge technology with unmatched craftsmanship. Contact Shieldon Manufacturing & Trading Combo today to discover how our ODM services can elevate your brand and bring your vision to life. With Shieldon, your brand doesn't just participate in the market; it leads.

## Unlocking Customization: Shieldon' s OEM/ODM Folding Knife Project Service

### Introduction: Crafting Uniqueness with Shieldon

In the world of knives, where functionality must marry form, having a partner who understands the nuances of customization is invaluable. Shieldon Manufacturing & Trading Combo, a leader in OEM/ODM knife manufacturing, offers unparalleled services that turn your vision into reality. Our focus today is on our folding knife project services, emphasizing the customization of knife scales with a variety of materials and patterns.

This theme of personalized options not only enhances the visual appeal of the knives but also aligns them seamlessly with your brand identity.

## **The Significance of Custom Knife Scales**

### **Aesthetic Appeal and Brand Identity**

The knife scale is more than just a handle; it's an opportunity to express creativity, enhance functionality, and solidify a brand's identity. With Shieldon's diverse material and pattern options, you can ensure your products stand out in the marketplace.

- **Visual Distinctiveness:** The color and pattern of a knife scale can dramatically alter the knife's appearance, making it a critical factor in consumer appeal.
- **Brand Consistency:** Customizing knife scales allows brands to maintain consistency in their product line, reinforcing brand recognition and loyalty.

## Enhanced Functionality

Different materials offer varying levels of grip, durability, and resistance to elements, directly impacting the knife's utility and lifespan.

- **Ergonomic Benefits:** The texture and material choice can improve grip and comfort, crucial for safe and effective use.
- **Durability and Performance:** High-quality materials like G10 and carbon fiber ensure that the knife withstands the rigors of daily use while maintaining its aesthetic appeal.

## Shieldon's Customization Options

### Material Choices

Shieldon offers a range of premium materials for knife scales, each with unique properties that cater to diverse needs and preferences.

#### 1. G10

G10 is a high-pressure fiberglass laminate, known for its strength, moisture resistance, and versatility in color options.

- **Durability:** G10 is highly resistant to wear and ensures a long lifespan for the knife.
- **Color Variety:** It supports a wide range of colors, allowing for extensive customization.
- **Texture Options:** Different textures can be applied for improved grip, enhancing safety and usability.

#### 2. Micarta

Micarta is valued for its organic feel and exceptional grip, even in wet conditions.

- **Natural Aesthetic:** Its warm, earthy tones appeal to those who favor a more natural look.
- **Grip Enhancement:** The material's surface texture provides excellent grip, crucial for precision tasks.
- **Unique Patterns:** Over time, Micarta develops a patina, adding to its charm and uniqueness.

#### 3. PEI (Polyetherimide)

Known for its high-performance properties, PEI is lightweight yet incredibly robust.

- **Heat Resistance:** PEI performs well under high temperatures, suitable for demanding environments.
- **Lightweight Structure:** Its low weight does not compromise strength, making the knife easier to handle.
- **Customizability:** Advanced manufacturing techniques allow for intricate designs and colors.

#### 4. Carbon Fiber

Carbon fiber is synonymous with cutting-edge technology and modern aesthetics.

- **Strength-to-Weight Ratio:** Offers exceptional strength without adding unnecessary weight.
- **Sleek Appearance:** Its distinctive weave pattern is highly sought after for a contemporary look.
- **High Resistance:** It resists environmental stressors, maintaining its appearance and integrity over time.

### Pattern Options

Beyond material choice, Shieldon provides an array of patterns to further personalize knife scales.

- **Textured Patterns:** Enhance grip and tactile feedback with patterns such as checkered, honeycomb, or diamond.
- **Visual Patterns:** Achieve aesthetic appeal with designs like camo, abstract, or geometric.
- **Custom Patterns:** Work with our design team to create a unique pattern that aligns with your brand's vision.

## The Shieldon OEM/ODM Process

### Step 1: Initial Consultation and Design Brief

Our process starts with understanding your brand, your vision, and your specific needs. This ensures that every aspect of the knife aligns with your expectations.

- **Collaborative Ideation:** Our team works with you to explore ideas and possibilities, setting a clear direction for the project.
- **Detailed Design Brief:** We establish a detailed design brief outlining materials, colors, patterns, and any other customization requirements.

### Step 2: Prototyping and Iteration

Creating a prototype is a crucial phase that allows for testing and refinement.

- **3D Modeling and Prototyping:** Using advanced technology, we develop a prototype that showcases your design, allowing for real-world testing and feedback.
- **Iterative Refinement:** Based on feedback, adjustments are made to ensure the final product meets all functional and aesthetic requirements.

### Step 3: Precision Manufacturing

Once the design is finalized, we proceed with full-scale production, ensuring every knife meets our high standards of quality and precision.

- **Advanced Manufacturing Techniques:** From CNC machining for precise cuts to hand-finishing touches, each knife is crafted with care.
- **Quality Assurance:** Rigorous quality checks are in place to ensure consistency and durability across all units.

### Step 4: Custom Branding and Packaging

Beyond the product itself, presentation is key. We offer custom branding and packaging solutions to enhance your product's market appeal.

- **Branding Elements:** Options include laser-etched logos, color-matched components, and branded accessories.

- **Innovative Packaging:** Tailored packaging solutions reinforce your brand's message and add value to the customer experience.

## Why Choose Shieldon?

### Expertise and Innovation

With over 25 years of experience, Shieldon combines traditional craftsmanship with modern technology, ensuring that each product is a masterpiece of design and functionality.

- **Cutting-Edge Techniques:** Our commitment to innovation allows us to offer unique solutions that set your products apart.
- **Global Reach:** We have the capability to serve clients worldwide, delivering exceptional products to diverse markets.

### Cost Efficiency and Quality Assurance

By managing the entire process in-house, Shieldon offers a seamless and cost-effective solution that saves you time and resources.

- **Cost-Effective Solutions:** Our integrated services ensure competitive pricing without compromising on quality.
- **Commitment to Excellence:** Our quality control processes ensure that each knife meets our high standards, enhancing your brand's reputation.

### Customer-Centric Approach

At Shieldon, we prioritize your vision and requirements. Our customer-centric approach ensures that the final product aligns seamlessly with your brand's identity and goals.

- **Personalized Service:** Each project is tailored to your specific needs, ensuring a product that resonates with your target audience.
- **Post-Production Support:** We offer ongoing support to ensure your satisfaction and success in the marketplace.

### **Conclusion: Partner with Shieldon for Unmatched Customization**

Shieldon's [OEM/ODM folding knife project service](#) offers your brand the opportunity to create unique, high-quality products that resonate with consumers.
